Competition Questions:

The completion includes 2 phases:

- I. In phase I each competitor must choose one of the above mentioned challenges, paraphrase the problem, elaborate how to solve that problem, and finally share their recommendations in a 5-minutes' clip.
- II. In phase II each competitor must submit a 15-minute video, illustrate what they explained in phase 1 in a practical way.

Pre-Competition Checklist

Before uploading your videos, check that you have already taken all of the following matters into consideration.

For phase I:

- Read the challenges carefully and prepare your answers before filming.
- You need to set up your camera in a quiet place where your head and shoulders are visible and try to speak with a loud, clear voice.
- Choose your challenge and explain about it orally and allocated enough time to that. (Totally 5 minutes)
- Place your camera in a stable place and avoid any shaking. It is recommended to use a handheld.

For phase II:

- For phase II film your class. Locate your camera in a place that it can film you, your students and the board.
- The number of present students in your class should not be less than 10.
- Students' first language shouldn't be used by the teacher.
- The film of the teaching time must be just 15 minutes and more than 15 minutes will not be considered.
- Focus on making yourself and your students feel comfortable in front of the camera.
- Give a placement test before, in order to have homogeneous students in the appropriate level. (If having different level in one class is not your challenge)
- Make all the materials ready beforehand
- [Download this poster](#) in order to stick it next to your board and make sure it's completely visible during filming.

Note: in terms of good performance, creative design of the activities will be considered as an extra positive point.
